HAPPY AGING Line Additional Care

Let the beauty of maturity unfold

Anti-Aging? – No, Happy Aging! The power of regeneration exists within each of us. It can be harnessed when we learn to accept ourselves the way we are. “Anti” means resistance, resisting oneself and one’s own abilities to regenerate. “Anti” makes old!

Love and acceptance for the things that make us “happy” and “forever young” – vibrant and radiant. One’s inner beauty enhances one’s outer beauty and natural skin care is an important part of this concept. Our natural cosmetic products do just that – support and enhance the regenerative process, naturally.

Only the best for our child – this is reflected in the demeter certification of all baby skin care products. Wool wax is particularly important for these creams. It is very similar to the vernix caseosa of newborns, the white, cheesy cell layer that covers and protects the baby's skin at birth. This means it protects and nourishes the skin very gently.
